

CNC Machining Parts

Features:

High Precision

Outstanding Quality

Shapes from Simple to Complex

Specification:

Maximum Size	1500*1500*1000mm
Color	White, Black, Transparent, or according to Pantone No.
Tolerance	±0.05mm
Surface Finishing	Glossy, Semi-gloss, Matte, Textured finish, As-machined, Smoothed, Bead blasted, Powder coated
Additives	UV absorbers, Flame retardants, Plasticizers, Colorants, Carbon fibers, Glass fibers
Logo	Debossed, Embossed, Printing
Drawing Format	2D Drawing: PDF/JPG/PNG 3D Drawing: STEP/STP/IGS/DXF/DWG
Product Volume	50,000,000 Pcs/Month

Types of CNC Machining Parts:

Plastic CNC Machining Parts

We can produce plastic machining parts with a variety of materials, support a variety of surface treatments, with higher precision, and can be widely used in machinery, food, chemical and mining industries.

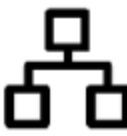

Metal CNC Machining Parts

The metal machined parts we produce are of high precision and are often used in precision instruments, which are durable and stable in performance. Widely used in automobile manufacturing, transmission machinery manufacturing, power construction and other industries.

Custom Process:

			
1	2	3	4
2D & 3D Drawing	Get a Quote	Drawing Analysis	Process
JGP, STP PDF, STEP DWG, IGS DXF, IGES	Manual quotation within 24 hours	Our engineering experts will analysis your drawing and choose suitable process for production	Injection Molding, Compression Molding, Casting Molding, CNC Machining, Metal Stamping, 3D Printing
			
5	6	7	8
Build a Prototype	Review	Mass Production	Delivery
Quick prototype exactly same as drawings or samples	Review & approve samples for mass production	Automatic production line accelerates production and guarantees quality	We can provide more options for additional assembly and logistics, and ensure a fast delivery within 5 working days

Zhongde has introduced more than 100 sets of advanced machining equipment, which can efficiently complete the production of a large number of parts and components. At the same time, it can ensure that all parts produced are of high precision and high quality, and can be customized according to customer needs. The machined parts we produce are mainly divided into two categories: plastic machined parts and metal machined parts. Please continue browsing to find products that match your needs.

Custom Plastic & Rubber & Metal Parts

One-Stop Service from Rapid Prototype to Mass Production and Parts Assembly

Contact Us:

Zhongde is committed to providing customers with high-quality and low-cost customized products. Up to now, we have customized 1 million parts and molds for customers from more than 50 countries around the world. We have introduced more than 500 sets machines to produce plastic components and parts, so that we can offer on-demand production according to customers' requirements. If you have customization requirements, please provide the corresponding 2D or 3D design drawings, and we will provide a quick quotation within 24 hours.

Headquarter

Zhongde (Beijing) Machinery Equipment Co., Ltd.

Add: C-708, No.9 Shangdi 3rd St., Haidian District, Beijing, China 100085

Email: sales@zdcpu.com

Tel: 86-10-82815399
